

5S Work Place Management

General

Need for 5S

5S methodology is a system for workplace organization aimed at efficiency:

- 1. Sort** : Remove unnecessary items
- 2. Set in Order** : Organize items for easy access
- 3. Shine** : Clean and maintain the workspace
- 4. Standardize** : Create consistent procedures
- 5. Sustain** : Maintain discipline to follow these practices

- Create clean and pleasant work place
- Improve file retrieval time
- Improve Scrap management
- Locate the required items
- Create more working space
- Improve morale of the employee

- Launch was done on September 2014
- Chairman, Principal and Faculty of TCE participated in the launch
- Chairman spoke on 5S and beyond
- Consultant explained 5S concepts

Creating awareness among students

Creating awareness among Faculty Members

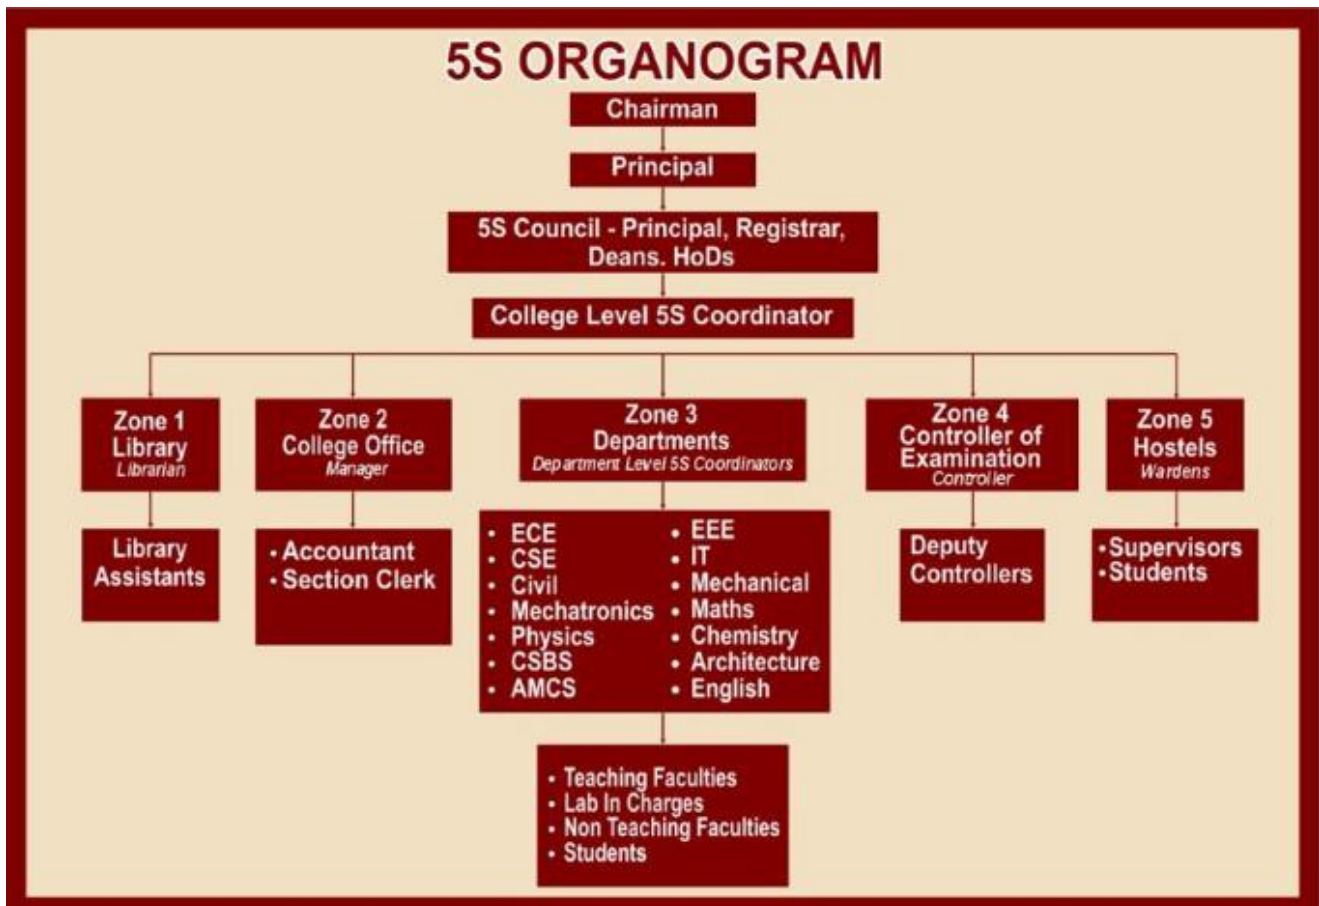

Creating awareness among HoDs and Deans

5S Initiative Program at TCE

5S Work Place Management

Vision

Clean, safe and organized working environment for quality technical education.

Policy

We will maintain clean and safe working environment by practicing the guide lines of 5S namely sorting, arranging, cleaning, standardizing and sustaining

Pledge

I will maintain my work place in an organized manner by

- Disposing the unwanted materials periodically
- Placing required materials in their place
- Keeping my workplace neat and clean
- Following the standards
- Sustaining the work culture

Promotional Activities

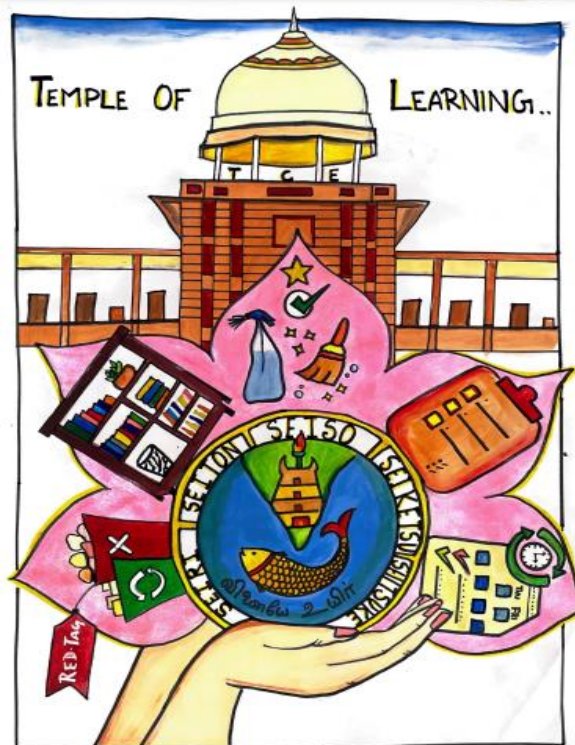

Slogan Contest

Meet my campus, it is clean and green!

Our custodians gather the fallen foliage to roll out the red carpet for our entries as visionaries.

We go a extra mile with a good smile to pay their due and print them as shining memories in our campus diaries.
