to me

Dear Dr. M,

I would be very grateful if you would be willing to re-review "An Efficient Trust Estimation model for Multi-Agent Systems using Temporal Difference Learning" (#NCAA-D-15-01163R1) which you previously reviewed for Neural Computing and Applications.

I would be most grateful if you could provide your review in 30 days, in order that we can inform the authors of the review decision as soon as possible. Please feel free to consult with your colleagues if this will help the review process.

Sub: Invitation to Microsoft Research Faculty Summit 2016

Dear Prof. Sukanesh,

On behalf of Microsoft Research India, I cordially invite you to the **Microsoft Research Faculty Summit 2016**. The Summit shall be held at Microsoft headquarters in Redmond, Washington, United States July 14-15, 2016 with co-located events on July 16, 2016.

Leading academic researchers and educators join Microsoft researchers and engineers to explore future technology trends that will define the twenty-first century at the fifteenth annual Microsoft Research Faculty Summit. This year, topics include computing devices and the Internet of Things, hardware-software co-design, data visualization, crowdsourcing applications, machine learning, and the algorithms that underlie emerging fields, such as computational neuroscience.

Together with researchers around the world, we aspire to generate groundbreaking ideas, techniques, and tools that enable us to gain the greatest benefit of the data revolution for the good of society. Presentations and demonstrations are key to the summit experience. The detailed agenda of the summit is available at <http://research.microsoft.com/en-us/events/fs2016/>

Microsoft Research shall bear the expenses of your travel and stay for Faculty Summit 2016.

We do hope you will accept this invitation and join a select group of academicians in representing India at the Summit.

Yours sincerely,

Satish Sangameswaran
Sr. Program Manager
