Audit Report

Order no.: 20061396
Customer no.: 45254-01

South Asia

Annex- 2: - Action List
Comments: An audit cannot cover each and every detail of the management system. Therefore, there may still be areas of concern (weaknesses) not addressed by the auditors in the closing meeting or the audit report. Audit results are always evaluated on the basis of the following classification:

Major Nonconformities (N):	Failure to comply with standard requirements; the causes of the identified deficiencies shall be analysed and the defined corrective action effectively implemented prior to the decision on certificate issue/renewal. The auditor generally verifies the effectiveness of corrective action in an on-site re-audit unless verification is possible on the basis of submitted new documentation.
Minor Nonconformities(MinN):	Failure to fully comply with individual requirements of the standard without jeopardizing the effectiveness of the management system element. The intended corrective action shall be communicated to the lead auditor within 14 days prior to the decision on certificate issue/renewal. The lead auditor evaluates the submitted corrective action and confirms acceptance thereof. The implementation of corrective action will be verified in the next audit.
Opportunities for improvement (I):	Aspects that would lead to management system optimization with respect to a requirement of the standard. Implementation by the organization is recommended.
Positive aspects (P):	Positive aspects of the management system meriting special mention
